Returns are calculated on the basis of closing mid-market prices. Fund performance is shown after the deduction of our standard investment management fees, which may or may not be the same for your scheme. Please refer to your scheme literature, or to your scheme administrator, for the fee rate that applies to your scheme. Past performance is not a guide to future performance and the value of investments can go down as well as up. Exchange rate variations can cause the value of overseas investments to increase or decrease. For overseas markets the figures are sterling adjusted. Emerging markets can be volatile and share dealing is less regulated than in the UK.
